Mest of the early settlers of Oregon were per sore of energy, or they never would have got bere. That was thirty to forty years ago Since then a race I as grown up not un'd things con spicaous for energy. The reason is that our position has been a very remote and isolited one. Our people lawe not been in contact with the great and growing activities of the great states. Late in Oregon has been a sort of sep-arate existence. The first settlers who came here passed on their journey over numbabited territory that has since become the seat of great states with their millions of inhabitants. Bu Oregon has bad no such growth. The origina colony has received small addits no year by year. but not enough to change greatly the original conditions. We may as well confess it, that is many things we are far behind the progress of industry and enterprise in other states. Our early settlers came out here before the great changes in systems and methods which have wrought so commists a transformation in the dates of their former residence had taken place and old habi s, an l in many instances have even degenerated from the original example suit is that, since there has been no rapid in result is mad, spice there has been in rapid in troduction into Oregon of new population with search ideas and more vigorous methods, the state is in many respects saily when the times? It has features of macrivity that re-semble those prevailing in many of the southern states, which have deliberately shut themselves in agricult influences from which Oregon has up against influences from which Oregon has on kept by its remoteness and isolation In statement of these facts about the people

of Oregon no consure is implied, because their have hired simply according to the law of their environmen... But it is proper to say in connec-tion with the subject that what the state needs is the introduction here of a knowledge of the methods of industry and business that prevail in the other states, as well as the acq usition: copulation prepared to make Oregon the field of new activities and consequently of a new life In the we grown rich here, who have neither appre cated their opportunities nor comprehended their duties. They have taken much from the andustry of the country and have given little industry of the country and have given little back. Here in Portland a comparative few

bave, during the lifetime of a generation, regu larly collected from the in lastry of the country a percentage or commission, whose accumula toose hage undergreat fortunes. In doing the business of the country, whether in the matter of transportation, in the lending of money, in supplying the demand for goods, or in the handling of the predicts of the country's industry, they have received or taken more that their equitable share of the profits. The effect Las been to add weight to that repression of industry and progress already in operation from other causes. Merchants have pursued a system that has aggravated the original evils Great profits have made long credits possible, and these long credits have spoiled the methods, of business and contributed to the general mertal of the industry and the mind of the country

activities and no great ones. They are better content with making profits on sales, collecting interest and rents, and taking a share out of eabluded industry wherever possible than with the policy of attempting to put new enterprise is, we believe it contains the elements of a true statement in explanation of the sluggish bond tion and slow growth of the industry of Oregon See at any rate if it isn't worth thinking about

Capitalists have done too little to create and ex-tend industry. They have set in operation few

CONSULTING THE SOUTH

The louisville Co rier-Journal has issued a circular letter of inquiry to leading southers white politicians, to know what will be the of fect of Cleveland selection on the future relation of whitee and blacks at the south troverne Stuckley of Delaware, Senator Joe Brown of Georgia, Governor John Ireland of Texas, Sen-ators John T. Morgan, Beck, Maxey of Texas, Column of Georgia, and Governors (Titthinden of Missouri, Herry of Arlansas, and Mcknery of Louisana, all answer that the effect of Clevend a election will be excellent, that the blacks of the south will discover that the lemocratic party has all along less their true frieal, that the republican party has grossly deceived them, has taken their voice without giving them any faces, and that hereafter the hou and the lamb will be down together in the south and that it s an entire mistake to say that the lamb will be fixeen points out, two facts are noticeable. Every person to whom this circular is addressed would have answered a similar circular addressed to this mithod concerning the secession of botth (arolina by saying that it was the very best thing that could happen, that the south would be permitted to 'depart in peace,' and that the north and south would get along more peaceably together as independent nations than i ever ione as parts of one confeiera tion If asked whether secess n would result in the aboliton of slavery they would all have answered that sheery was more eternal than either the umon of the states and that no man of any sense either at the north or at the south had any pur ose or desire to at high it

Mr (yrus W Field recently total a clory about or type we read to the O R & N Compute, which makes lightly interesting reading here. That or poration, as all know, was conceived in the brain of Mr Villard, and Mr Hor are White of the New York Feeting Post, as ace white of the New York return from assisted at its birth. Mr. Villard made himself
president and Mr. Wilde treasurer, and "these

As soon as it came into their hands it under wont
extraordinary manapu ation. The first step was
to issue some millions of bonds, enough to pry thus heavily leaded, they and their co-brectors issued three millions of stock and they divide lift among thereselves. This stock was pure water Having thus got the stock into their han is fo nothing, these gentlemen went to with in the most approved way to inflate it, so hat they could work it off upon the public. The most direct means was by reports of fictions earning. To swell the apparent gains they charged transporting their own materials and entered the amounts or the books as so much inoney re ceived Ti e amount so entered was very large, which they made still larger by charging them selves more than they charged many others. By such extraordinary in those of arithmetic it was to appear that this young company had in its very beginning an enormously pro-Of course the flaming reports thus presented to the public were utterly in isleading and false. They were a fraud on the stockhold-ers and on the public. When the tetal, thus swollen, was given as the profits of the road, the statement was a deception of the most unblush ing character. When the affairs of the company became desp-rate, Mr. Field continues, Mr. White lent the company's funds to Mr. Villard, without at thority at d without security, and in all probabilit, he money has not yet been restored to the company All this was part of the great Transcontinental fraud, which was set up on the public and by which mocent persons in Portland and elsewhere were robbed of mill ions of do lars. Mr White, it may remarked, en among the fiercest of the critics of for his operations in railroad he hough these operations were the very soul of honosty compared with those of Villard and White in O R & N and Transcontinental The city of Los Augeles is having great

Its nate, its vinerards, its orange grove, make Los Angeles one of the most aftractive of places. It has a great future

Since the beginning of the spoils era in American politics, the four year term law has been one of the strongest bulwarks of that system It has given it e sanction of law to the unbusiness like and demorthizing theory of a "rotation in office," and his kept a succession of mexperi-enced men in public positions, to be impred out as soon as their jointeal "backing" wis gone, or at every turn in an electron. The con-stitutional tenure of good behavior and accepta-ble service should be restored for all these offices, This Jiw fixing the time of postmasters and other presidential appointees at four years was adopted during the administration of President Madison, for the purpose of permitting partisan 3) positments to be that it without incurring for the administration the o min of making re nis for that purpose Peendont Mal son declined b and hirself of its provisions as lid his successor, John Quincy Adams, who renewed the appointsoon (line) Adams, who renewed the appointment of every office, u on the expiration of his term, unless charges of some native were brought against him. OREGON'S SMALL EXHIBIT -E. W Alles, one of the commissioners from Oregon to the world's fair at New Orld's, writes to J. W. C. awford of Salem, stating he arrived there on the 25th and the car containing Oregon's exhibit arrived on the 25th and was unloaded on the 25th, then everything was apparently in good shape. He also states that there is much confusion here on account of the unfinished buildings, and every person waiting to get their exhibits really for he opening on the loth. He says that our exhibit looks small when compared with twenty the care from Kansas, Only from Nebraska and hirty from Minnesota, and no money to make my show with, while other states have from Minesota, and no money to make the states have from Minesota, and no money to make the states have from Minesota, the different states, to they can make a fine exhibit. Mr Allen suggests that it would be well for Mr I rawford to send back fresh samples of fruit, as that which was taken will soon be vilted. We would, therefore, ask all who have necetypies, pears, or samples of dred fruit, to send him in to Mr. Crawfort on or before becomber 5, so he can make a relipionent by the ist of Jinuary. Those sending green fruit thould include about ten of each kind he a package and he specimens should be thoroughly ceaused and with ped in papers. Dired fruits stould be in five or ten pound packages.
